

When Flowers Bloom by Mojo Stitches: Thread Usage

Below is the stitch count for each colour; from my notes from stitching the model, most colours only needed a single 6-thread strand (using the Gentle Arts/Classic Colorworks pre-cut lengths as a guide), with a few of the greens needing two.

Again, please feel free to use what overdyes you have and then sub in the DMC for the rest. If you wanted to buy any of the overdyes, I'd go for the most-used greens – these give the biggest bang for your buck! I hope this helps 😊
